EinScan LiBRE

All-in-One Laser 3D Scanner: Wireless, Markerless, Full-Color

Get ready, get Libre!

Get ready,
get Libre!

The EinScan Libre delivers a fully wireless, standalone 3D scanning experience, powered by its built-in screen and NVIDIA processor. It offers the perfect balance of freedom and efficiency, ensuring reliable results with versatile, user-friendly operation. Equipped with both laser and infrared light, the device adapts to a wide range of materials and excels at capturing detailed textures. Its Laser HD mode supports texture alignment during scanning, improving accuracy on complex surfaces. The EinScan Libre is the first standalone 3D scanner on the market to support texture alignment.

Cut the Cord,
Go Wireless

5.5-inch OLED display

Capture, view, and manage your scans effortlessly with its user-friendly touchscreen designed UI.

Embedded computing system

Scan and process independently, with all functions built into the device—no laptop required.

Rechargeable batteries

No time for downtime? Just reload and keep scanning.
Slide your batteries into the convenient charging dock and be ready to scan at all times.

Brains Behind the Speed

Equipped with a high-performance processor and generous storage, the EinScan Libre provides wireless freedom without compromising computing speed.

Powerful NVIDIA processor

The integrated Jetson Orin NX 16GB, 8-core CPU and Ampere GPU with 1024 CUDA cores deliver fast data processing.

1TB SSD

Room to roam. With expansive storage, you can scan freely without worrying about running out of space—whether high-res models or hefty projects.

All Modes On Deck

Switch between the EinScan Libre's three versatile scan modes to cover object sizes ranging from 0.1m to over 10m. These IR (infrared) and laser modes help the scanner adapt to all kinds of materials, whether you're indoors or outdoors in direct sunlight.

Scan Data

Laser HD Mode

Revolutionary 101 parallel laser lines enable markerless, high-detailed scanning with rich texture.

Resolution up to

0.05 mm

IR Rapid Mode

Ideal for larger areas, this mode offers marker-free and high-efficiency scanning with invisible, eye-safe infrared light. It's less sensitive to ambient light, making it perfect for outdoor use.

Working distance up to

1.5 m

FOV

983 x 979 mm

# Complete On-Device Workflow

Mesh data output
Generate mesh data with a single click, completing the entire process on the device without the need for a PC.

Quick data editing
Edit scan data directly on the device, simplifying the workflow.

# Enhanced PC Integration

Flexible, multi-tasking workflow
Experience greater flexibility beyond single-threaded operations.

Multi-resolution fusion
Effortlessly combine scans with different resolutions across various modes for enhanced results.

Resource-efficient system
Delivers smooth performance without the need for high-spec computers.

Lifelike Color Reproduction

Experience high-resolution color capture with the EinScan Libre. Equipped with a 48MP color camera, it delivers lifelike color fidelity, capturing every detail with clarity and vibrant colors. The EinScan Libre ensures your scans reflect the full richness of the scene or object you're scanning.

Where Wireless Meets Accuracy

Experience the perfect blend of freedom and accuracy with the EinScan Libre. This advanced wireless scanner delivers an impressive volumetric accuracy of up to 0.04 + 0.06 mm/m, ensuring that every detail is captured with pinpoint precision. Whether working on intricate designs or complex projects, the EinScan Libre provides the reliability and accuracy you need, all in a truly wireless device.

EXModel

EXModel is a powerful bridge that simplifies CAD modeling from 3D scanning to manufacturing. With the integration of EXScan Libre, you can now seamlessly import data to EXModel with a single click after completing a scan. EXModel offers a comprehensive set of tools that enable you to create professional-grade CAD digital models that are compatible with your CAD software.
